

**Re: River Park South Extension – Phase 3
Qualico Developments – Underground Services and Roadwork
on Karen Irvine Crescent, Kingsclear Drive and Tilstone Bay**

This project will begin the week of July 20th, 2015 and weather permitting, be completed September 30th, 2015.

We will direct most of the Construction Traffic to enter the Site via the Access Road (Weather Permitting) off the Perimeter Highway. We expect that some traffic may have to enter the Site through existing streets but will keep to a minimum.

To keep your children safe, please keep them away from the Construction Site at all times.

Taillieu Construction Ltd. is the Contractor for this project.

We will attempt to minimize the inconvenience and disruption as a result of this project.

If you have any questions or concerns regarding this project, please contact Bill Grimolfson or Bob Hinkelman of WSP, the Consultant on this project, at 477-6650 during regular business hours.

We understand that this project may cause you some inconvenience. We appreciate your patience.

Sincerely,
WSP Canada Inc.
