Date Created	Date Addressed	Caller	Address	Email Address	Complaint	Response	Location	Wind Direction	Odur Coming From the BRRMF?	Notes
5-Feb-17	6-Feb-17	Citizen 1	Address 1	Email 1	Email in from resdient reporting that today around 5:00 a.m. - 9:00 a.m. he noticed a stong odour from around his home. He states he believes it is coming from Brady Operations and requests his concern be investigated	Ryan Kolbuck emailed the resident to inform him that the odour was most likely originating from Brady Road Resource Management Facility due to the direction of the wind.	W, NW, SW	SW		
9-Feb-17	9-Feb-17	Citizen 2	Address 2	Email 2	Caller states that the state of the odour coming from Brady today is really bad. He states that the last ffew days have not been so bad, but today its brutal.	Responded to the the resident informing them that I have contacted the operations team at Brady of the issue and of possible ways to resolve/minimize it.	N	S		Odour is definitly coming from Brady Raod Resource Management Facility. Most likely due to trenching being done on the tipping face.
6/24/2017	6/26/2017	Citizen 3	Address 3	Email 3	Details of Call: Citizen stated that on Thursday night she went out in her yard and the wind was stinking from Brady Landfill. She had experienced it earlier also and is requesting to take a look into this matter as it makes it difficult to live in a locality closer to the landfill. Every year citizen calls regarding this issue and no action has been taken. It is a health hazard. Caller has young children and elderly parents living with her. They cannot open the window. It is very nauseating if they open the windows.	Responded by email to the resident informing her that the wind direction was not moving towards her residence so the chances are that the odour was coming from nother source. Also informed the resident of the steps that are being taken to reduce odours coming from the BRRMF	N	W, WNW	No	
4-Jul-17	4-Jul-17	Citixen 4	Address 4	Email 4	"Details of Call: Caller states that there is bad smell coming near her address at Ivy Lea Court since last Saturday.C aller is not sure it is from Brady or Samborski Environmental. She will also be contacting Manitoba Conservation regarding Samborski Environmental,but wants to report this to department to make sure its not from Brady landfil. Kindly look into the concern. "	Myles Naften attempted to call the resident but was unable to make contact. Odour was investigated	N	SSW,N,NW,NNW,W	Mostlikely Not	The distance the odour would be required to travel would have made it unlikley that the offensive odour was eminating from Brady Road Landfill. Also due to the eradic wind directions and the amount of time that the odur lasted it was mostlikely due to anohother source.
7/14/2017	7/17/2017	Citizen 1	Address 1	Email 1	Via Email Citizen is complaining about the smell that they believe to be coming from Brady Rd. Citizen states: "This evening on July 13 at 10pm there was a very noticeable odor around my home. With the winds, it is very likely coming from the Brady landfill. Please investigate to see what the cause is and try to minimize this. This negatively affect me and my wife's walk."	Spoke to one of the Project Coordinators and discovered that the slope on the North side of the landfill did not have any daily cover applied to it. The waste was particularly odourous. With the wind direction and speed the odour is mostluikely coming from Brayd Road Landfill	NE	SW	Yes	
7/18/2017	7/18/2017	Citizen 5	Address 5	Email 5	Caller stated he is with Southwood Golf and Country Club. Caller stated there is a real bad odour coming from Brady Road Landfill. Caller stated there is 84 people that have complainted to the southwood golf and country club about the smell.	Called the resident and provided information on our upcoming drilling project and to answer any questions. Odour was mostlikeley due to open trenches on the tipping face or potentially the Samborski site.	SE	NW	Yes	Could not verify whether it was Brady Road Landfill or the Samborski composting site.
9/9/2017	9/11/2017	Citizen 6	Address 6	Email 6	Citizen advised that there is a pungent smell coming from the landfill. He resides at 59 Calderwood Bay and it is extrememly strong.	Contacted the resident via email to explain our current prject that requires trenching at Brady Road Landfill as well as the possibility that the odour could be coming from the Sambrski site as well. The time of the complaint is outside normal operational hours so it is impossible to track down the definite source. Operations forman indicated that all trenches and refuse was covered at the end of the day.	NE	SW	Potentially yes	Will speak with the foreman to verify that all waste was covered at the end of the day as well as to see if there is anything abnormal that culd have caused more odour.

9/30/2017	1/10/2017	Citizen 7	Address 7	Email 7	Caller states that he lives in the bridgewater trail. Odour from Brady was terrible. It's been really bad yesterday and today.	Responded to the resident informing thiem that the issue will be looked into but due to a lack of information i.e. location and time. It will be difficult to pinpoint the source fo the odour	Unknown	Unknown	Unknown	
10/6/2017	10/9/2017	Citizen 1	Address 1	Email 1	Via email citizen states "I noticed a strong odour in my back yard today, October 3 around 6:30pm. Given the wind the direction I suspect it came from the Brady site. We were trying to barbeque outside and could not fully enjoy it due to the odour. Please investigate the cause of the smell and eliminate it."	Investigated the odour. Cause was open trenches due to construction of Gas Extraction Wells	NE	SSW	Yes	
11/22/2017	11/23/2017	Citizen 8	Address 8	Email 8	Via email directly to Brittany McWhirter: I just wanted to let you know that the there is what I would describe as an expired meat smell this evening. It isn't a smell that has occurred often.	Contacted the resident via email explaining that the cold weather and dry conditions have led to landfill gases escaping through cracks in our methane gas collection system. Additionally, odour is coming from open trenches along the top of the hill. She informed him that we are working to keep those trenches covered.	NE	SSE	Potentially yes	Methane gas collection system has been repaired. Working to ensure the trenches are properly closed every evening.
12/3/2017	12/4/2017	Citizen 9	Address 9	Email 9	Citizen states that as of December 3 of 2017 there is a noxious chemical smell coming from Brady Road Landfill. Bill states that it is quite obvious that the odour is coming from Brady Road that is 12KM away from his home. "I really do hope that more efforts are underway to mitigate the smell in the area. We invested a lot of money into this house and it would be nice to have cleaner smelling air outdoors	Contacted the citizen through email and explained the majority of the wind the past few days has been from the south. Verified that there were no trenches left open over the weekend or during the week.	NW	S	Yes	
12/24/2017	12/27/2017	Citizen 10	Address 9	Unknown	311 Complaint - Caller is very upset and mentioned that there is very strong odour coming from Brady landfill today . He mentioned that he is in his car near Pembina and Killarney and he can smell it there. Kindly look into the concern.	we are working to mitigate some of the issue through improved covering at the end of the day and by expanding our landfill gas collection system. That we do not plan on closing the landfill in the foreseeable future and that we are going to be opening a new cell south of the hill very shortly which will improve some of the odour.	NE	SSW	Potentially yes	Complaint occurred over Christmas Holidays.
